Modo

Designed by Burkhard Vogtherr

With a simple and classic design, Modo is the perfect building block for whatever space you have in mind. Designed to anchor large spaces without overpowering the room, this low-profile lounge series is a wonderful addition to any design plan. The deep seat stays true to the model bench design while the low back provides additional support for lounging postures.

Modo shifts the focus of the standard conference room. This new approach to meeting spaces offers ample seating in tight spaces and a plethora of new design opportunities. Utilize Modo as a freestanding lounge piece for collaborative break out spaces throughout the office.

This fresh take on a traditional piece transforms standard working areas with a stylish flair. Available in backless, benches, and L-shaped units in a variety of lengths, it's easy to find the right fit for any space. Modo can be used as a lounge seating solution in many environments: collaborative meeting spaces, waiting areas, cafés, breakout spaces, work lounges, lobbies, or conference rooms.
