Bakhita™: light, comfortable and lasting.

Bakhita makes it easy for people to pull up a chair and chat or quickly gather for a presentation. This versatile polymer chair can be used in casual dining areas, educational facilities, meeting rooms, pool side, on patios and non-ferrous healthcare rooms. An upholstered seat option provides additional comfort for extended applications.

From left to right: 6750 Armchair shown in Alloy (ALY) and Char (CHA). 6752 Upholstered Armchair shown in Milk (MLK), seat shown in Momentum Millennium, Anchor (ML42).

The perfect indoor/outdoor chair.

Choose from four versatile neutral colors, with or without arms, and everything stacks. Bakhita utilizes an innovative technology to simultaneously mold two different polymers; glass filled nylon for the internal structure and polypropylene for the external surface. The result is the strength, lightweight and durability you have been waiting for in a plastic chair.

From left to right: 6753 Upholstered Armless chair shown in Milk (MLK), seat shown in Momentum Millennium, Anchor (ML42). 6751 Armless chair shown in Alloy (ALY) and Sand (SAN).

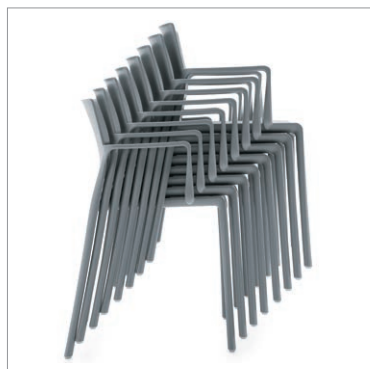

Refreshingly simple and refined.

Bakhita embodies the visual refinements that easily coordinate with other furnishings and almost any architectural expression. It is a timeless look that has been designed and engineered to survive the test of time in varied and sometimes unpredictable environments. Bakhita, a benchmark in seating design that is well on its way to becoming a modern classic.

6752 Upholstered Armchair and 6753 Upholstered Armless chair, shown in Milk (MLK), seat shown in Maharam Metric, Lava (ML58). GRBTP36 Swap Table 36" Dia. Round Top shown in White (WHT) Laminate with GRB22 22" Dia. Standard Height Round Base shown in Designer White (DWT).
