

THE NEST

COLLECTION

designed by **Form Us With Love**

"We analyzed the activities and behaviors of public spaces, and the upholstered furniture versus barstool seating scenario. Instead of putting the two characteristics next to one another, we merged them – creating a tall vertical Nest."

- Creative Director John Löfgren.

Pictured (clockwise from bottom left): Nest Low Sofa and Chairs (Camira Main Line Flax), Breck Large and Small Tables (Camira Balance and Blazer) with Walnut Veneer tops, Nest High Chair and Sofa (Camira Main Line Flax), Nest High (small) Table, Boet Barstools and Cone Bar Table.

Taking Traditional Lounge to New Heights

“Design shouldn’t be put on a pedestal necessarily, but the idea of celebrating real craft is worth lifting. In this case, lifting a little higher from the ground than usual.”

- Creative Director John Löfgren

Meet Form Us With Love

An international design studio founded in 2005, this team has burned with a passion for design and its democratic potential. Its belief is that we all have a right to meaningful design.

At the studio’s core lies a process that blends traditional creative practices with a lean, strategic application. The central intention is to evolve with the needs of each project, its place in the market and the ever-changing needs of real people.

Challenging Conventional Design

The Nest collection includes lounge sofas, chairs and tables in two heights, encouraging a more social atmosphere. Use the varying heights together or separately to create both balance and division within a space. The high sofa and chair were specifically crafted for the right balance of structure and elegance, creating warm, inviting and comfortable lounge seating - at new heights.

Unlike the traditional barstool, elevated upholstered lounge seating provides superior comfort and support, even at longer intervals of sitting. The soft curves and fluid intersection between the seat and the backrest underlines the sofa's quality in terms of design and production, providing a distinct Nordic expression that adds a contemporary and modern feel to any space.

Bring Something New to the Table

The Nest Table Series exudes modern design. The black powder coated tubular steel frame provides a light expression while ensuring a very strong and durable base. Available in two heights and two sizes, Nest Tables are perfect for a variety of spaces.

The table top is offered in Fenix Nanotech Laminate - an innovative material that is highly resistant to scratches, abrasion, rubbing and dry heat. Its surface is extremely opaque with a luxurious “soft touch” and low light reflectivity. The beveled edge adds a sophisticated touch to this modern, Nordic-inspired table.
