## LEAN, LIGHT, AGILE

Inspired by the dynamic beauty of a cresting wave, Nami’s sculpted back and seat have a gentle, controlled flex that moves with the user’s body to provide comfort when seated over an extended period.

As a stacking chair — with accessories that include a tablet arm, bookrack, dolly and ganging option — Nami™ performs multiple functions in diverse spaces.

Nami is ideal in conference areas, classrooms, auditoriums, healthcare facilities, cafés and recreational spaces. The Bar Stool model is ideal for use in bar, bistro and cafeteria applications. Nami also coordinates well within workstations as a guest chair.

BOOKRACK

The bookrack provides storage of books and other personal items.

TABLET ARM

The retrofittable tablet arm option pivots 180 degrees for easy user adjustment and folds down when not in use.

Unlike most stacking chairs, Nami uses the same ganging device for models with or without arms, or in combination. The ganging device, which is retrofittable, retracts beneath the seat when not in use.
